ORDER

The motion of defendant James Broadbent for summary judgment has been read and considered. For good and sufficient reasons, the motion shall be denied without prejudice to its renewal after the close of discovery. Of course, if the claims against defendant James Broadbent have been brought or are maintained in bad faith, the court has an appropriate arsenal of sanctions available to redress such action.

Accordingly, it is this 13th day of December, 2002, by the United States District Court for the District of Maryland, hereby ORDERED

(1) That the motion for summary judgment (Paper No. 10) is DENIED WITHOUT PREJUDICE; and it is further ORDERED

(2) That the Clerk shall TRANSMIT a copy of this Order to counsel and to Mr. Simmons, acting pro se.
